PROFESSIONAL SUMMARY

With proven focus and experience in the field, my motivation is to offer companies key skills required to Composite on Feature Film and TV Productions. Delivering shots on time efficiently whilst communicating with the team, I would like to work on interesting Productions, with leading Visual Effects companies. Career progression in mind from Mid to Senior Compositor my potential and commitment to the role is unshakable. Moving forward I would like to Composite for Feature Film or TV on Productions that inspire people delivering shots and sequences that I can be proud of as an artist.
